PROFESSIONAL SUMMARY

Results-oriented AI Engineering student in the Third year at Bahçeşehir University, with hands-on experience through internships, academic research, and AI industry events. Skilled in machine learning, deep learning, neural networks, LLMs, and Python-based AI development. Passionate about building intelligent systems and translating data-driven insights into real-world solutions.

WORK EXPERIENCE

Artificial Intelligence Engineer | BAU Artificial Intelligence Society

Sep 2024 – Present

- Collaborated with professors and students to research, develop, and deploy AI-powered solutions using Python, Machine Learning, and Deep Learning frameworks
- Applied Generative AI, LLMs, and prompt engineering to build intelligent systems and automate processes
- Engaged in knowledge-sharing sessions with academic professionals to stay current with emerging AI trends
- Worked in a hybrid, cross-functional team to design and implement AI-driven solutions aligned with industry needs

AI Engineer Trainer | Renad Almajed (RMG)

Jul 2025 – Oct 2025

- Trained and mentored team members on AI tools and frameworks, improving workflow efficiency and accelerating project delivery through hands-on workshops and technical guidance
- Led the development and integration of AI-powered solutions into internal projects, leveraging LLMs, prompt engineering, and automation pipelines to enhance productivity

EDUCATION

BSc in Artificial Intelligence Engineering

Expected Graduation: 2027

Bahçeşehir University | Istanbul, Turkey

SKILLS

Technical Skills: Python, NumPy, Pandas, scikit-learn, Machine Learning, Deep Learning, Neural Networks, PyTorch, Keras, TensorFlow, Prompt Engineering, LLMs, AI Agents, Generative AI, Microservices, Microsoft Azure, SQL, TensorFlow

Soft Skills: Problem Solving, Research & Development, Team Collaboration, Technical Training & Mentoring, Project Management, Analytical Thinking

Languages: Arabic (Native), Turkish (Elementary), English (Fluent)

CERTIFICATIONS

- IBM Deep Learning with PyTorch, Keras and TensorFlow Professional Certificate — IBM (April 2026)
- IBM Machine Learning — IBM (Jan 2026)
- Exploratory Data Analysis for Machine Learning — IBM (Dec 2025)
- AI Agents and Agentic AI with Python & Generative AI — Vanderbilt University (Oct 2025)
- Developing Explainable AI (XAI) Duke University (Nov 2025)
- Microservice Architectures — Vanderbilt University (Sep 2025)
- Introduction to Microsoft Azure Cloud Services — Microsoft (Aug 2025)
- Getting Started with Cisco Packet Tracer — Cisco (March 2026)

VOLUNTEERING & EVENTS

Artificial Intelligence Resident | Bahçeşehir University — AI Summit 2025

Mar 2025

- Participated in AI Summit 2025 (2nd attendance), deepening understanding of Machine Learning, Deep Learning, and real-world AI applications while expanding insight into leading AI companies and industry trends

Artificial Intelligence Resident | Bahçeşehir University — AI Summit 2024

Mar 2024

- Participated in AI Summit 2024, exploring key concepts in Machine Learning and Deep Learning, gaining insights into leading AI companies, and networking with AI professionals and specialists in the field
