PROFESSIONAL SUMMARY

AI Engineer and FDE Professional with hands-on experience delivering ML, Deep Learning, LLM, and Generative AI solutions. AI Project Manager skilled in Python, PyTorch, TensorFlow, and AI Agents. Proven track record across 6+ virtual simulations with global firms and 3+ years of industry engagement. Passionate about building scalable, data-driven intelligent systems that create measurable real-world impact.

WORK EXPERIENCE

Artificial Intelligence Engineer | BAU AI Society | Sep 2025 – Present

- Developed and deployed 3+ AI-powered solutions using Python, ML, and Deep Learning frameworks, reducing manual research time by 40%
- Applied LLMs, Generative AI, and prompt engineering to automate 5+ academic and operational processes

AI Engineer Trainer | Renad Almaged (RMG) | Jul 2025 – Oct 2025

- Trained 10+ team members on AI tools; reduced project delivery time by 30% through hands-on LLM and automation pipeline workshops

JOB SIMULATIONS & VIRTUAL EXPERIENCE

McKinsey Forward Learner Program — Member

Deloitte Australia — Data Analytics Job Simulation

- Analyzed 1,000+ rows of forensic data; built a Tableau & Excel dashboard reducing data interpretation time by 35%

Deloitte Australia — Cyber Job Simulation

- Investigated 500+ web activity log entries; identified 3 critical threat indicators supporting a client cybersecurity breach response

BCG X — GenAI Job Simulation

- Built an AI-powered financial chatbot using Python and pandas on 10-K/10-Q reports; achieved 90%+ accuracy in financial insight extraction

Tata Group — GenAI Powered Data Analytics Job Simulation

- Conducted EDA on 5,000+ customer records; proposed a predictive ML framework reducing delinquency risk assessment time by 50%

Datacom — Automation AI Accelerator: Co-pilot to Autonomous Agent

- Designed an end-to-end automation flow cutting timesheet-to-invoice processing time by 60% for a 200+ employee client scenario

Siemens — Technology Work Experience — Springpod

- Applied AI and engineering concepts to industrial technology challenges; completed full Siemens technology program with certification

EDUCATION

BSc in Artificial Intelligence Engineering | Bahcesehir University, Istanbul, Turkey | Expected Graduation: 2027

SKILLS

Technical: Python, NumPy, Pandas, scikit-learn, Machine Learning, Deep Learning, Neural Networks, PyTorch, Keras, TensorFlow, NLP, Prompt Engineering, LLMs, AI Agents, Generative AI, RAG, Microservices, Microsoft Azure, SQL, GitHub, FDE Professional, Claude 101 Professional

Soft Skills: Problem Solving, R&D, Cross-functional Collaboration, Technical Training & Mentoring, AI Project Management, Analytical Thinking

Languages: Arabic (Native), English (Fluent)

CERTIFICATIONS

- IBM Deep Learning with PyTorch, Keras and TensorFlow Professional Certificate — **IBM**
- IBM Machine Learning — **IBM**
- Exploratory Data Analysis for Machine Learning — **IBM**
- AI Agents and Agentic AI with Python & Generative AI — **Vanderbilt University**
- Developing Explainable AI (XAI) — **Duke University**
- Microservice Architectures — **Vanderbilt University**
- Introduction to Microsoft Azure Cloud Services — **Microsoft**
- Getting Started with Cisco Packet Tracer — **Cisco**

VOLUNTEERING & INDUSTRY EVENTS

AI Resident | BAU AI Summit 2024 — 1st Attendance | Apr 2024

- Explored ML and Deep Learning concepts; networked with 100+ AI professionals and gained insights into leading AI companies

AI Resident | BAU AI Summit 2025 — 2nd Attendance | Mar 2025

- Attended 10+ sessions on real-world AI applications; expanded professional network with AI researchers and industry specialists

AI Resident | BAU AI Summit 2026 — 3rd Attendance | Mar 2026

- Engaged with 20+ leading AI companies on cutting-edge trends in ML, Deep Learning, and Generative AI

Participant | Kanz AI Training Hackathon | Jul 2026

- Applied hands-on ML and AI skills in competitive hackathon environment; earned certificate of completion from Kanz
